

COMPANY PROFILE

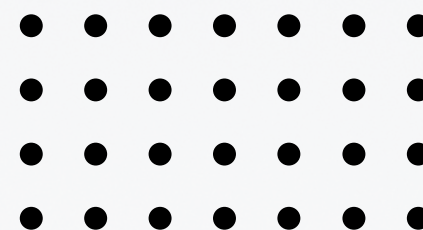

www.2bitglobal.com

Introduction

2Bit Global LLC is a cutting-edge IT and DevOps company based in Newark, Delaware, USA. Backed by our parent company, Allied Solutions for IT, which has been a leader in Saudi Arabia for several years, we provide a broad range of services that enable businesses to thrive in a digital-first world. Though we are a relatively young company in the USA, having just completed our first year, we are empowered by a highly experienced team with over 15 years of expertise in development, designing, and business intelligence.

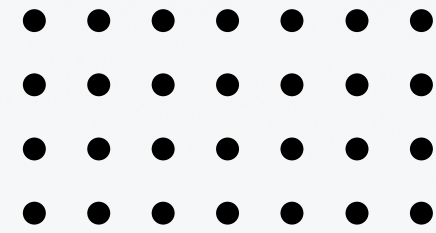

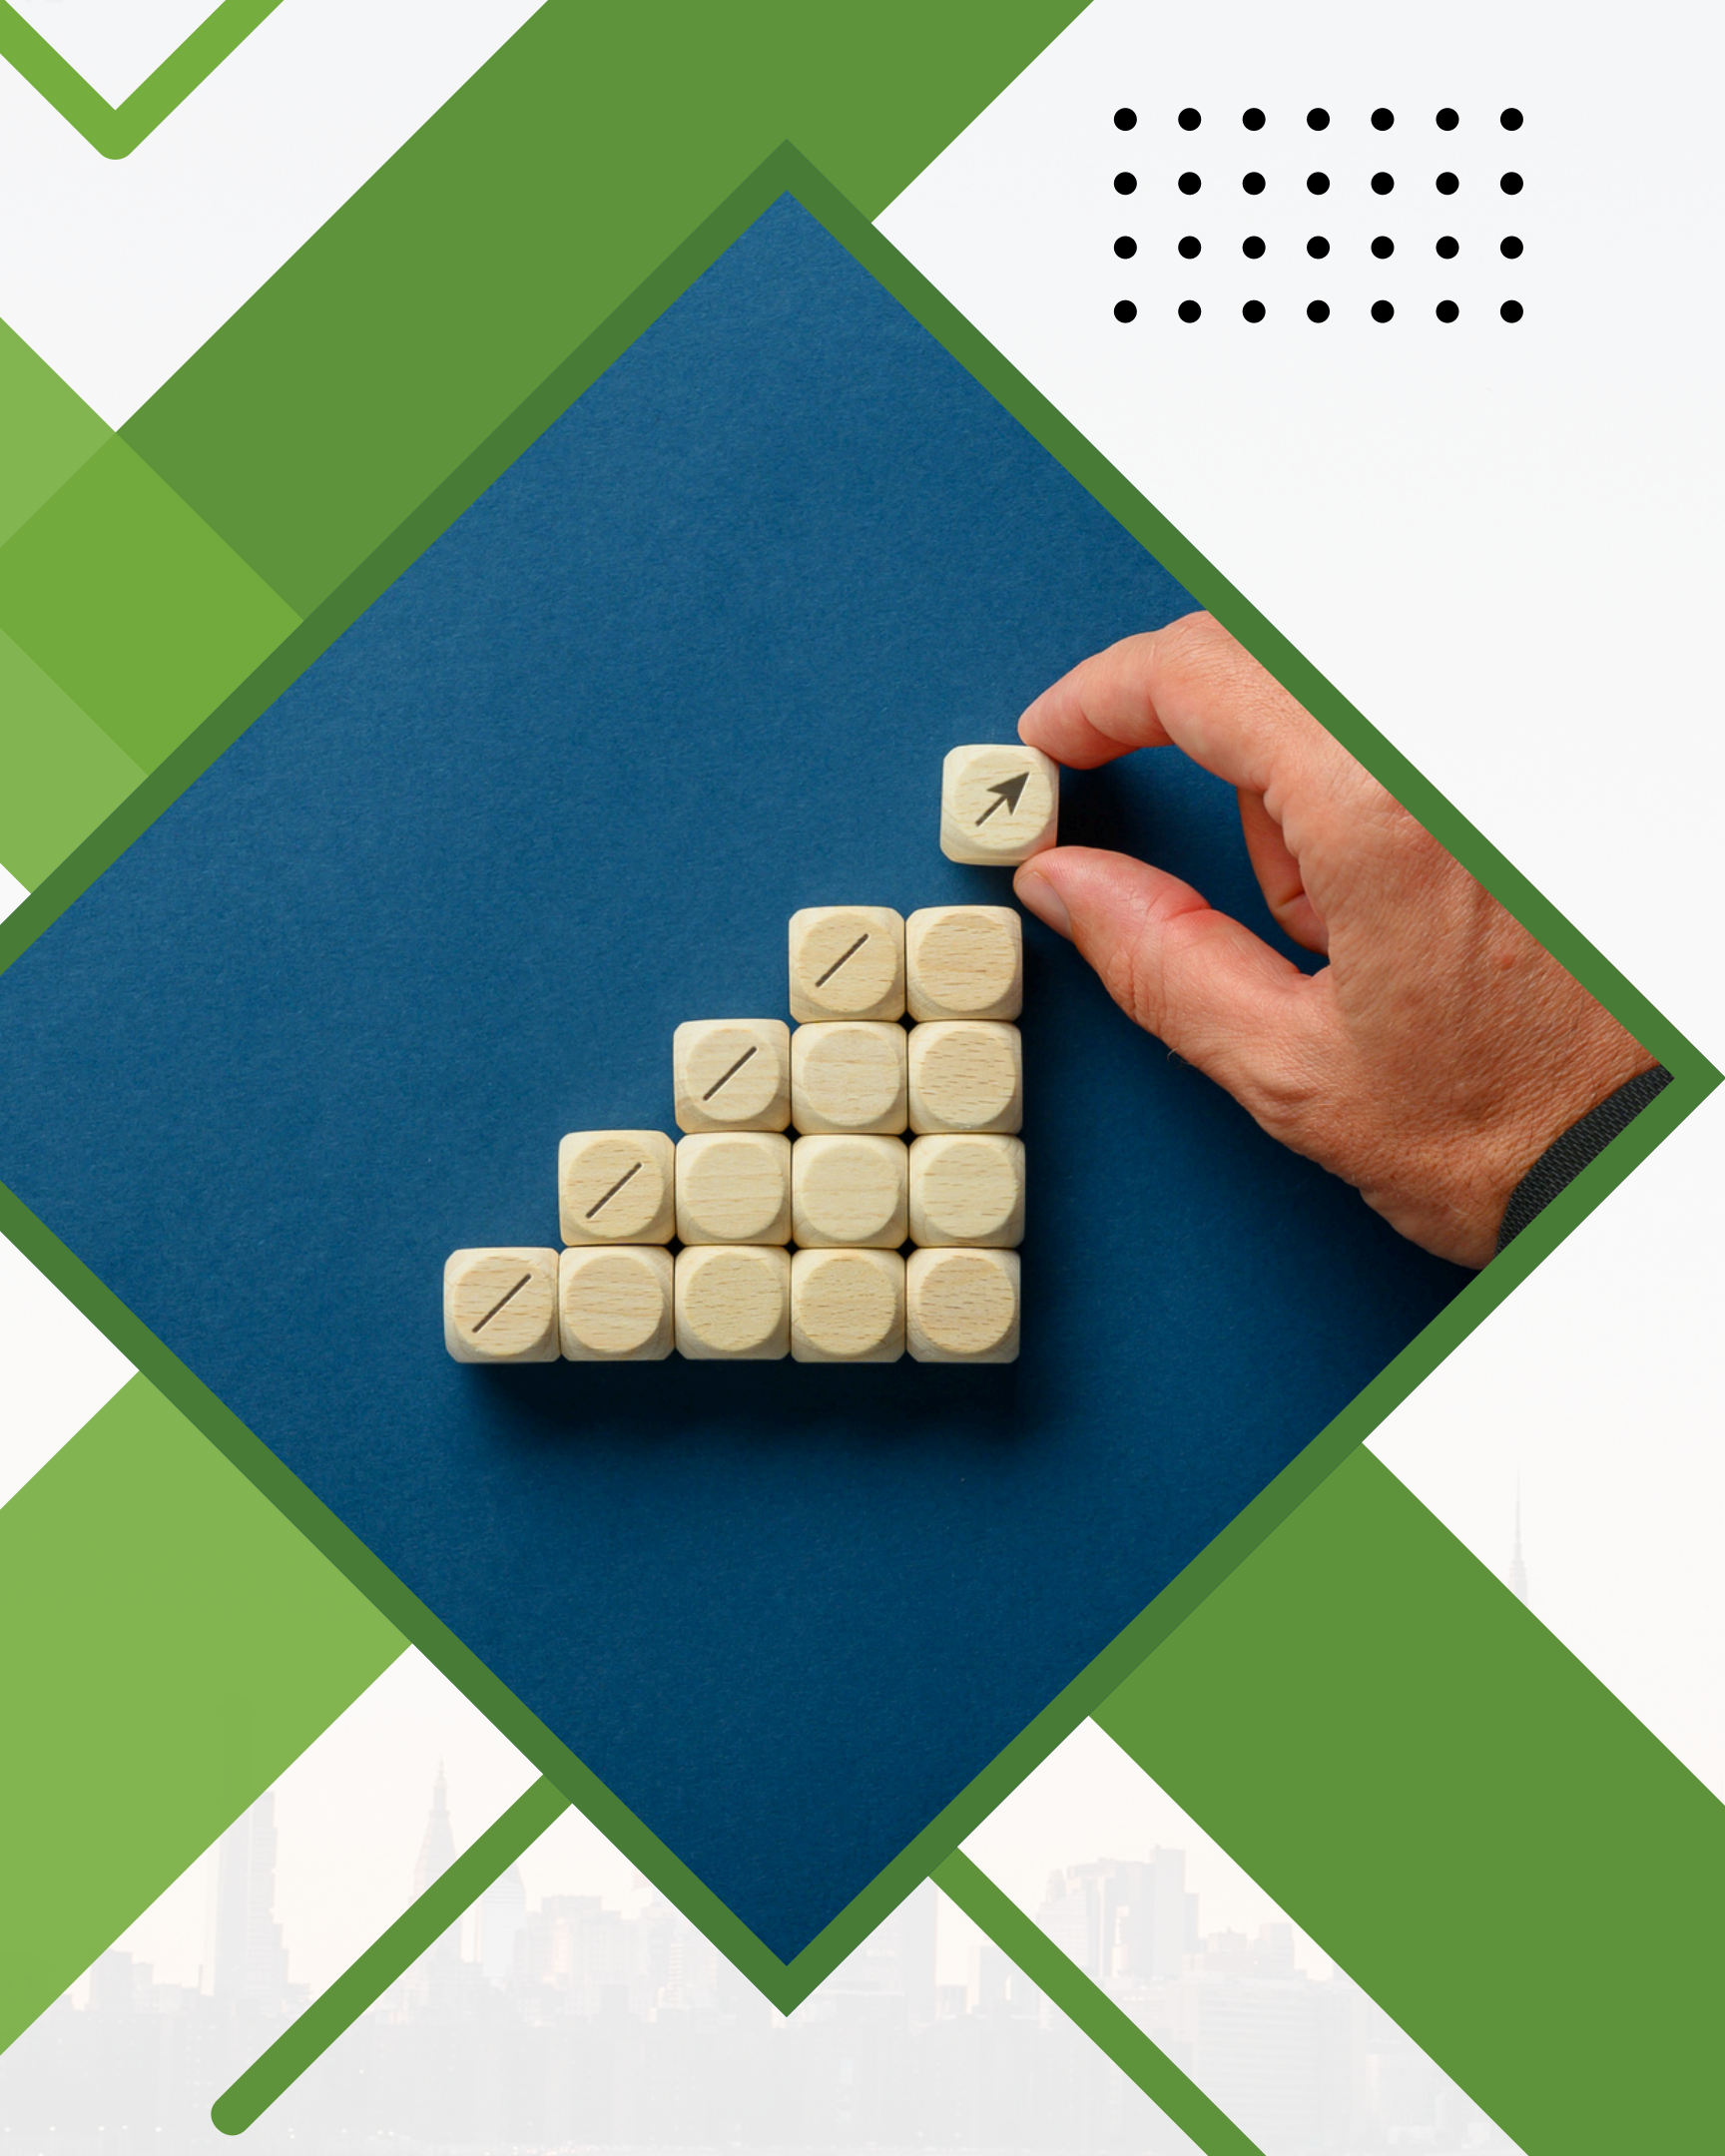

About 2Bit Global

As part of Allied Solutions for IT, 2Bit Global LLC draws on the extensive expertise and resources of our parent company to deliver a comprehensive suite of Digital services. We specialize in IT infrastructure management, DevOps, and Cybersecurity, with a strong commitment to customer satisfaction. Our experience also spans the design and development of mobile applications, website development, and custom software solutions. Our team is dedicated to creating scalable, efficient, and innovative solutions tailored to meet the unique needs of businesses across various industries.

Corporate Vision

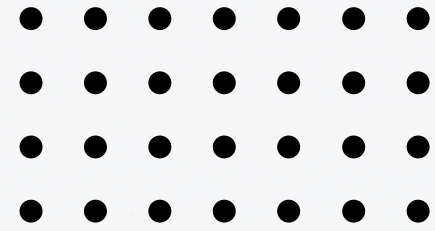

To be the global leader in IT and DevOps solutions, empowering businesses to achieve digital transformation and operational efficiency through innovative technology.

Corporate Mission

Our mission is to simplify IT and DevOps complexities, providing seamless and innovative solutions that enable businesses to thrive in today's digital landscape. We are committed to delivering high-quality services that ensure security, efficiency, and scalability for our clients.

Web Development

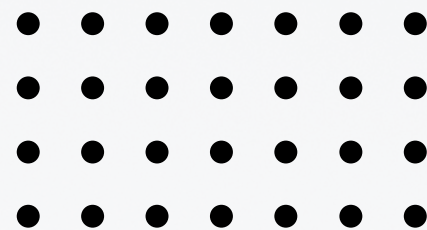

We provide web development services focused on building high-performance, responsive websites tailored to your business needs. From custom web applications to optimized e-commerce platforms, we create visually appealing, functional, and scalable websites. With a user-first approach, our intuitive designs enhance user experience and drive growth, whether you're launching a new site or updating an existing one

E-Commerce Solutions

We offers comprehensive e-commerce solutions to support business growth in the digital marketplace. Our services include user-friendly online store development, secure payment gateway integration, and scalable, high-performance platforms for seamless customer experiences. Whether you need a custom website, third-party integration, or multi-channel sales management, we help elevate your online retail operations

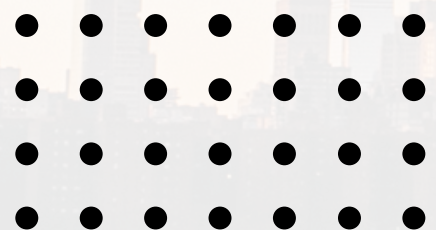

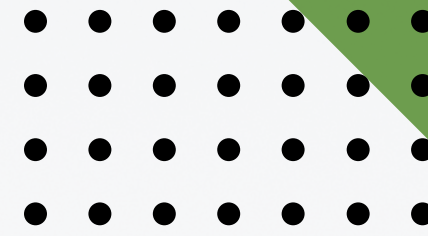

Custom Solutions Development

We provide custom software development tailored to your business's unique needs. We create bespoke applications from CRM systems to specialized solutions that enhance efficiency, scalability, and productivity. Working closely with you from concept to deployment, we ensure the software aligns perfectly with your processes

Software Development

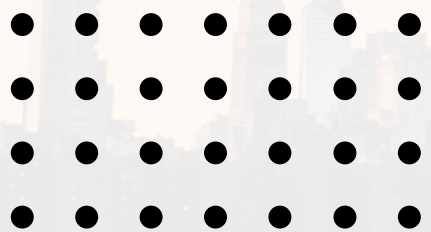

With over 15 years of experience, we deliver reliable, scalable, and secure software solutions tailored to your business goals. We focus on improving efficiency, automating workflows, and ensuring seamless system integration. From enterprise-level software to custom applications, our end-to-end services provide real value to your business.

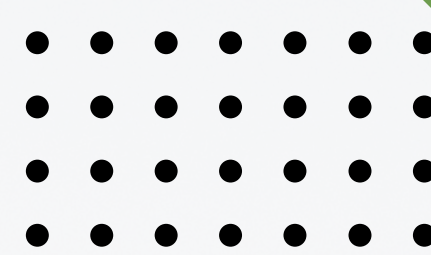

Search Engine Optimization (SEO)

We offers expert SEO services to boost your online visibility and search engine rankings. We optimize your website for both search engines and users, focusing on increasing organic traffic, improving performance, and enhancing keyword relevancy. Our strategies include on-page optimization, link building, and content marketing to drive targeted traffic and improve rankings on search engines like Google.

Social Media Management

We offer comprehensive social media management services to help you engage with your audience, grow your brand, and enhance customer loyalty. We handle everything from content creation to targeted ad campaigns on social media platforms. Using a data-driven approach, we ensure your social media strategy aligns with your business goals and resonates with your target audience

Data Analytics

We provide comprehensive social media data analytics services to help you make informed business decisions. We collect, analyze, and interpret data to deliver actionable insights that drive strategy and performance, whether it's customer behavior, market trends, or operational efficiency. Our services help you unlock the full potential of your data, giving you a competitive edge in a data-driven world
